Type of Form Required and its Purpose

★ Form Required

Select the correct form for your needs.

For risk assessments this should be in accordance with your training.

Is this a new risk assessment?

Undertaken after 29th September 2015

★ Title 

Reference Number 

E.g. BD/RA/Gen/001 or D-HR-01

Identifier

This should summarise what you are assessing e.g. activity, process, workplace.

If there are reference documents such as MPDs and SOPs then include the titles and numbers here.

★ Identifier 

What might occur?

Please list all hazards

Please list all hazards

Who is affected and how?

★ Who is affected ?

★ How are they affected ?

Best practice is to link with the specific hazards if all are not applicable.

Inherent Risk Grading

Inherent risk is an evaluation of the damage that could occur assuming there are no controls are in place or there is catastrophic failure of the controls. It is completed for the activity / assessment as a whole.

★ Inherent Risk Red-Extreme
Orange-High
Yellow-Moderate
Green-Low

Likelihood	Impact				
	Negligible	Minor	Moderate	Major	Catastrophic
Almost Certain	<input type="radio"/>				
Likely	<input type="radio"/>				
Possible	<input type="radio"/>				
Unlikely	<input type="radio"/>				
Rare	<input type="radio"/>				
Rating (initial):					Risk level (initial):
					<input type="text"/>

Controls in place

Best practice is to directly link the controls to the hazards they are reducing and to list them in order of preference according to the hierarchy of control i.e. eliminate, substitute, engineering controls, information, instruction (such as SOPs and SSW), training, supervision, health

surveillance and Personal Protective Equipment (PPE).

★ Controls in place

E.G. "Gloves available to wear - YES"
For COSHH assessments please consider other controls e.g.
Health Surveillance.

Final risk Grading

Residual risk is an evaluation of the damage that could occur after taking into account the effectiveness of current controls. It is completed for the activity / assessment as a whole.

★ Residual Risk

Red-Extreme
Orange-High
Yellow-Moderate
Green-Low

Likelihood	Impact				
	Negligible	Minor	Moderate	Major	Catastrophic
Almost Certain	●	●	●	●	●
Likely	●	●	●	●	●
Possible	●	●	●	●	●
Unlikely	●	●	●	●	●
Rare	●	●	●	●	●

Rating (current): Risk level (current):

Additional control measures to reduce risk

When adding actions they should be targeting the highest risk areas to help reduce the residual risk from the activity.
Please note that you will have to save this record before the Actions section is enabled.

Next Review due by

Frequency for review must be in line with MPD1090 - H&S Risk Management

★ Confirm review date (dd/MM/yyyy)

Performed by

★ Risk Assessor

Remember that the Risk Assessor and Manager should not be the same person. Once ready for Manager approval change status to awaiting approval.

★ Date completed (dd/MM/yyyy)

 16/12/2020

Manager

Identify the manager who should be signing off this risk assessment.
